**PLOT:** In the state of Clevellein 1960, master thief Diabolik has outwitted inspector Ginko and the police force once again. The mysterious thief has been on a crime spree and their identity remains unknown. In the midst of Diabolik's reign of terror, heiress Lady Kant is visiting town and bringing along with her a priceless pink diamond ring. The town is excited for her arrival and so is Diabolik, who plans to steal the ring by any means necessary. However, what Diabolik was not expecting was to be enchanted by the heiress. Torn between his feelings and his life as a high-profile criminal, Diabolik does not realize that he is in more danger than he originally thought.

## JUNE'S WALK INTO THE PAST...

From inception and throughout its history FFT leadership has faced challenges. The first nine years of its existence difficulties were faced at each stage. Stirring enthusiasm was needed through the arduous first stage and our dynamic first president Giuseppe De Carli was the right individual to make it happen. The seeds planted by De Carli started to germinate quickly with our second President Dante Colussi's vision of the need to broaden our social objectives. Finally, it was our young third president, Antonio Tosoni, who recognized the need to reach out and attract a new generation of young Furlans that would cement the strong roots of the FFT. Today we can proudly claim that the Famèe Furlane Toronto is the only society of its kind in Toronto that is still flourishing.

With a new phase on the horizon let's remember those pioneers and their contributions. We recognize we have a fascinating past. One that must be preserved and kept alive at all costs; for *"we are only what we have been.... more precisely.... we are what we remember we were."*

As we celebrate 90 years and honour our roots, let's unite with the grit and enthusiasm first exhibited by our ancestors to build a new phase in the history of the Famèe Furlane Toronto.
